# Literature Books

## **Erebus:** Ten Stories

Life is a journey with choices.

We can feed our ego, anger, fear and self-pity;  
Or we can choose an alternative path.

Two authors explore the possibilities in this  
collection of short stories.

## Science Books

## Viral Shapeshifters

Strange Behaviors of HIV and Other Viruses

This book explains the story of each virus in terms of evolution and its interactions with humans.

It argues that early vaccine successes with the smallpox and polio viruses were due to the hard shells of those viruses, and proposes an explanation of why it has not been possible to replicate that success with HIV.

## Simplicity in Complexity

An Introduction to Complex Systems

How do scientists model crowd behaviour, epidemics, or earthquakes?

What can we learn from the collective intelligence and adaptability of an ant colony?

This book answers such questions by highlighting common themes such as self-organisation in the study of complex systems.
